Haptic X Chemical Resistance

Revolutionary Materials in Interior Design

NEONE by Sunflower is the next generation in surface coatings. This is achieved with an acrylic coating that is cured by an electron beam process (EBC). NEONE provides superior abrasion resistance of the surface, enhanced chemical resistance, as well as antibacterial and antifungal properties with reduced finger print marking.

NEONE comes in a soft ultramatt finish that is both elegant in appearance and to the touch. Moreover, it is not limited to just solid color designs, also in minerals and woodgrains, and is available in both laminate (HPL) and decorative board (MFC).

Applications: vertical and horizontal – wall linings, cabinets, storage shelves, countertops etc. Suitable for use in hospitals, laboratories, schools, residences, commercial spaces, offices and any indoor applications.

NEONE

High Abrasion
Resistance

Anti-Finger Print

High Chemical
Resistance

Antifungal and
Antibacterial

Food Contact
Regulation

High Durability

High Pressure
Laminates

Size: 4' x 8' (1220x2440mm)
5'3" x 12' (1600x3660mm)
Thickness: 1.0mm

Melamine Faced
Chipboard

Size: 7' x 9' (2100x2850mm)
Thickness: 8mm 、 18mm 、 25mm

Maintenance Guide

HPL Certifications :

- ISO 9001:2015
- CNS 11366/11367
- BS EN 438 (UK & EEC countries)
- NEMA LD3-1995
- JIS K-6902/6903 (Japan)
- GB 50222-95 (China)
- Taiwan-Made Product MIT
- Green Building Material mark by Architecture and Building Research Institute
- Green Label (Singapore)
- Department of Communication of Japan as "F☆☆☆☆"(Super E0) classification
- Antifungal Grade - ASTM G21 (excl. Metallic HPL)
- Antibacterial Grade - JIS Z 2801 (Japan) (excl. Metallic HPL)
- GB 18580-2001 (China)
- Food Contact Regulation (EU)
- ASTM related tests
- Chemical Resistance

MFC Certifications :

- CNS 2215
- Green Building Material mark by Architecture and Building Research Institute
- JIS Z 2801
- Department of Communication of Japan as "F☆☆☆☆"(Super E0) classification
